

# Investigate the News

## BUILD A HOME

Search the newspaper for places where people live. Check news pages for photos, classifieds for homes for sale and apartments for rent and real estate sections for other details about designing and/or renovating homes and furnishing apartments.

What places did you find?

In the newspaper, where did you find the places? (section/page numbers)

What do homes have that meet “needs?” What do homes have that represent “wants?” Interview people to find out why they chose the place where they live. Draw or describe a place to live that meets your needs, now or in the future.

Search newspaper archives using the words, “home,” “house” or “apartment.”

**SHARE** what you learn about housing in your community from searching the archives.
